

Step-by-Step Instructions

(PRINT this set of instructions to follow every time you refill your cartridge)

Hewlett Packard C5010 (#14) Black

Items Needed: gloves, cardboard station #2, pigmented black ink, paper towels, review hints & tips and check list

Syringe: Attach needle tip (located inside station # 4) to the syringe tightly. Unscrew lid on ink bottle. Puncture silver seal with needle tip making a small hole in the center of seal. Pull the correct amount of ink into the syringe. Rinse syringe and needle tip after every use and before using syringe with another color. Rinse syringe and needle tip with water until the water runs clear.

- 1.) Place the black cartridge upside on cardboard station #2.
- 2.) The exit port on bottom of cartridge is your fill-hole. See photo
- 3.) Using the black pigment ink, Pull the correct amount of ink into the syringe and place the nozzle tip of the syringe slightly above the ink fill-hole and slowly drip the ink into the exposed sponge. Cartridge will take up to 20mls in the black chamber. Stop refilling when the sponge does not readily absorb the ink. After refilling, let cartridge remain upside for 30 minutes.
- 4.) After 30 minutes, blot off any excess ink around the fill-hole area. Sit refilled cartridge upright on paper towels with the exit port facing down. Allow cartridge to sit for an additional 15 minutes.
- 5.) Make sure cartridge is not leaking or forming and drip before placing back into printer. If printer asks if cartridge is new, always reply, "yes".
- 6.) Run 1-2 print tests. [Or Print 3 pages using:](#)
